22nd November 1955]

SRI V. R. KRISHNA AYYAR: Of course, there are so many Committees and their recommendations are not seriously taken notice of. So, there is absolutely no surprise in the Hon. Minister not knowing the Committee, its recommendations and all that. But, in view of the fact that there is universal complaint from all the districts, from not merely local board hospitals but also from Government hospitals as the hon. Member there pointed out and as I also know that even vital medicines required for tuberculosis are not sometimes supplied in time to the Tellicherry Hospital of whose Advisory Committee I happen to be a Member, would the Government create some kind of apparatus to by-pass this very sluggish Stores?

THE HON. SRI A. B. SHETTY: A same sort of question is asked in another form. I have already replied that whenever indents cannot be complied with by the Medical Stores, it is open either to the Government Hospital or the local fund dispensary to get medicines locally by getting quotations from reputable firms.

(Questions Nos. 2712, 2713 and 2714 taken up together.)
